AIA NATIONAL CAMPAIGN #ilookup
National Public Awareness Campaign

For the next phase of repositioning, AIA launched a three-year public awareness campaign on December 12th to raise the profile and significance of the architect's contribution to the built environment. The campaign will encourage us to put down our mobile devices, think about what inspires us, and look up at the structures that help shape our daily lives.

To keep up with the campaign follow AIA on Twitter (@AIANational).

Be sure to follow and use the hashtag #ilookup on Instagram, Facebook, and Twitter to join the conversation.
